Love,
Is stronger than anger,
It s stronger than fear,
Stronger than me.
Love,
Is a medicin cabinet,
                       C#m
Full of everything you need.
Swallow it up let it make you feel,
The best part of yourself that you can be.
Cause everyone gets a little angry,
But that s just life at least there s you and me.
Love,
Is tricky like a minefield,
Better watch you step cause,
Everyone knows someone who s been blown away.
Love,
Can leave a blister on your heart,
                                                 C#m
Just let it heal, and you ll be fine and callus free.
Swallow it up let it make you feel,
The best part of yourslef that you can be.
Cause everyone gets a little angry,
But that s just life at least there s you and me.
Oh oh oh oooh ooh oh
