NIGHTTIME SKY

Intro:

| F | - | C | - | Gm | - | Bb |

F **C**
So many nights I ve walked alone
Gm **Bb**
Clouds and city lights, they cover up the stars and moon
F **C**
When I was young I had my friends
Gm **Bb**
But everyone s grown up and gone, I m on my own again
F **C**
Where is my someone, I dream of her nightly
Gm **Bb**
I know she s out there somewhere and I hope she dreams of me
F **C** **Gm**
I yearn to be away from here in a place where wind s the only noise
Bb **C7**
And the night is cold and clear, so cold and clear

F **C**
Under the nighttime sky
Bb **F** **C**
My spirit was a-soarin as you put your hand in mine
F **C**
Another nighttime sky
Bb **F** **C**
My heart it was a-singin and my head was full of dreams
F
for you and I

Then I awaken in my room
I realize that I ve been nowhere and day is comin soon
Don t know how much more I can face
Oh something s got to change for me, I got to find a way back to that place

Under the nighttime sky...

(Solo)

When evening comes I don t go home

There s something different bout this night, can t put my finger on
I follow my feet and something calls to me
And there she is before me, it s the girl of which I dreamed

Prepared for disappointment, there s only a smile
I hear myself ask her "•Could we walk for awhile?"•
I pinch myself, I m not asleep
Oh it s not exactly the same, but I know I ve reached that moment from my dream

Under the nighttime sky
My spirit was a-soarin as you put your hand in mine
Another nighttime sky
My heart it was a-singin as I looked into your eyes
Under the nighttime sky
My spirit was a-soarin as you put your hand in mine
Another nighttime sky
My heart it was a-singin and my head was full of dreams
for you and I
