Song: Bring it On Album: Nocturama

-----

Intro: Am C G

Am C G

Am C G

This garden that I built for you, In which you sit in now and yearn

C G Am C G

I would never leave it dear, I could not bear to return

Am CG Am CG

And find it all untended with the trees all bended low

Am CG Am G

this garden is our home dear, and I don t know where else to go

Chorus:

F Am C

So bring it on,

G

bring it on

F Am C

every little tear,

G

bring it on

F Am C

every useless fear,

G

bring it on

F Am

all your shattered dreams,

C

and I ll scatter them into the sea, into the sea

The geraniums on your window sill, the carnations dear and the daffodil well they re ordinary flowers but they long for the light of your touch and of your trembling will

ah you re trembling still, and I m trembling too to be perfectly honest, I don t know quite what else to do

So bring it on, bring it on every neglected dream, bring it on
evey little scheme,
bring it on
every little fear,
and I ll make them disappear
