

Stronger Back On The Ground

Nick Jonas & the Administration

This is one of my many favourites from the album :) There wasn't any full chord versions on here so I decided I'd make one. I'm not exactly sure the proper name of the (*) chords, I just know how to play them, lol. Anyways, they sound better than just the plain chords.

NOTE:

In the bridge and outro part of the song the G is played twice with quick up-down of the C (not sure if it's in the exact spot) than back to G twice. Then the quick up-down of the C and a D once and so on| the (-) indicates the amount of times the chord is played. (If you listen to that part of the song it'll hopefully make sense). I'm pretty sure the chords are right, but let me know if I need to change anything :)

G= 320003	G*= 320033
C= x3203x	C*= 032033
D= xx0232	A*= x02233
