It was really coming down

airport this year

Bm

Doors are locked and bolted

E **A**

Let the festivities begin

Bm

The terminal was seething

E **A**

Without much Christmas cheer

So I found an empty closet
And bedded down in there
When I woke much later
I was really quite alone
Checkin was deserted
Everyone had gone

It looks like Christmas, Christmas
at the airport

I took a set of X rays
and they came out very well
It looks like Christmas, Christmas
at the airport this year

Now I m doing Santa s sleigh ride
on the baggage carousel

It looks like Christmas, Christmas at the airport

I should be at the table
with all my kith and kin
It looks like Christmas, Christmas
at the airport this year

Don t save me any turkey
I found a burger in a bin
