

## She Dont Love Nobody

Nick Lowe

**G**            **C**            **D**            **G**  
From my humble point of view

**Em**            **C**            **D** **G**  
She don't love nobody

**G**            **C**            **D**            **G**  
Nothin' borrowed, nothin' blue

**Em**            **C**            **D** **G**  
She don't love nobody

Behind the green eyes I detect  
She don't love nobody  
Her heart no kiss could resurrect  
She don't love nobody

**C**  
All of her life

**G**            **D**            **C**  
She's been told to hang on tight

**G**            **B7**            **Em**  
There's a man who'd make her his wife

**Em7**            **A7**            **D** **C**            **D**            **D7**  
But she's not interested in anything mama said

She throws passion to the wind  
She don't love nobody  
She don't give out but she don't give in  
She don't love nobody

And if I could I'd make her mine  
But she don't love nobody  
And she would never walk that line  
She don't love nobody

(chorus)

I want the girl who does not need  
She don't love nobody  
She's the one my heart receives  
She don't love nobody

She don't love nobody  
She don't love nobody
