

Song On Fire
Nickelback

Intro: **F#m A Bm D**

F#m

The first words that come out

A

And I can see this song will be about you

Bm

I can't believe that I can breathe without you

D

But all I need to do is carry on

F#m

The next line I write down

A

And there's a tear that falls between the pages

Bm

I know that pain's supposed to heal in stages

D

But it depends which one I'm standing on

F#m

A

I write lines down, then rip them up

Bm

D

Describing love can't be this tough

A

E

I could set this song on fire, send it up in smoke

F#m

D

I could throw it in the river and watch it sink in slowly

A

E

Tie the pages to a plane and send it to the moon

F#m

D

Play it for the world, but it won't mean much

Unless I sing this song to you

(**F#m A Bm D**)

F#m

I'm dying to show you

A

This could end happily ever after

Bm

There doesn't ever have to be disaster

D

And all you have to do is sing along

F#m

A

I write lines down, then rip them up
