

Once it s started, there s no turning back
Bm D G Em
And I ll be with you when the sun turns black
Bm D
Cause finding faith will always be the hardest
G Em
Why you re standing in the heart of darkness
Bm D
If there is one thing I can promise you
G Em Bm
We ll see the light again

Bm D
This is the calm before the coming storm
G
This is the ripped-sky-morning
Em
Without warning now
Bm D
This is the fight that we ve been waiting for
G

And there s no sense in running
Em Bm D G
The hammer s coming down
Em Bm D G
The hammer s coming down
Em
The hammer s coming
