Ayo they could never make me hate you

Even though what you was doing wasn t tasteful

Even though you out here looking so ungrateful

Imma a keep it moving, be classy and graceful

I told em it s no friends in the game

You ain t learned that yet

All the bridges you came over, don t burn that yet

Niggas want respect, but niggas ain t earned that yet

Self-righteous, and entitled

But they swearing on the Bible that they love you

When really they re no different from all your rivals
But I still don t wish death on them, I just reflect on them

Yo, people will love you and support you when it s beneficial
Imma forgive, I won t forget, but Imma dead the issue
Soon as you out the nigga s lives is when they start to miss you
They see you doing good now it s kinda hard to diss you
Niggas be sick when they remember all the bad they wished you
Niggas be mad when they can t come and live lavish with you
But I sped off in a Benzy, I see the envy when I m causing a frenzy
So I pop pills for them, cop cribs in the Hills on em
