

Gravity
Nico Vega

This is a very simple song, mostly built around A and C#m. The fingering is simple enough, so here I just put the chords.

A

I m on the other side of things you know

C#m

I m on the other side of things and I

Can t be laughing when you look and me cause

you re operating out of jealousy

A

I m not gonna hear anything you say

C#m

I ll listen but I won t let it in my way...

Up above, I m looking at the heavy ground

I can feel it but I won t let it bring me down.

That repeats throughout both verses and the chorus.

```
