Tunning: 1 & 1/2 Step down

On acoustic guitar with metal strings, Use a pick (folk guitar)

So. This song has been in my mind for a while and i learned it like all of us
from the
tabs.

But the licks and chords they didnâ€™t feel right. There was some mandolin kind
of thin on
guitar

But i just guess it was the 2 guitars and the piano and all that sh*t. I saw a
video in
internet

From a dude that recorded Marco playing ut live, i had the chance to see a
little bit
i figure out

From there the tuning and fact that the guitar lick has a top line and a bottom
line in
high strings.

It aint that hard but it takes time. I hope you like it
