

Little On Up  
Nils Lofgren

Great song which I first heard from the Acoustic Live album and it s that version

i tried to figure out.

I think I got it fairly good, but it s by ear so it might be errors...

It s the same chords through the whole song. Listen to it to get the right tempo and feeling.

The chords lining with the text is not perfect, but you ll get the picture

To spice things up, Nils plays this little riff instead of the C in the beginning of some Chord sequences:

```

e|-----|
B|----5h6-5---|
G|----5---5---|
D|----5h7-5---|
A|-----|
E|-----|
  
```

Listen to the song to figure it out or just throw it in when ever you like.

Well thats about it, enjoy!
