I, I used to think the world was flat

**Am**  
I used to think the sky was black  
**F**  
But the stars painted it at night

**C** **E**  
And I, well I used to give things just like that  
**Am**  
But now I m always looking back  
**F**  
Check my footprints in the ground

**C** **E**  
Our lives have changed but the traces remain  
**Am** **F**  
We all have been framed and just didn t turn  
**C** **E** **Am** **F**  
But I don t wanna hear any more excuses from you

**C**  
I don t wanna, I don t wanna, I don t wanna talk about it  
**E**  
I don t wanna, don t wanna, don t wanna hear  
**Am** **F**  
About this new world that s gonna shape me

**C**  
And I don t wanna, I don t wanna, I don t wanna see it  
**E**  
I don t wanna, don t wanna, don t wanna be  
**Am** **F**  
The one that gets knocked off my own two feet

**C** **E**

And childhood dreaming was just fine

**Am**

I never thought it changed my mind

**F**

About what my left foot bring me

**C**

**E**

And you, you always said that you'd be mine

**Am**

Exchange your looks for in the line

**F**

About what would end so quickly

**C**

Our lives have changed but the traces remain
