The Sun Will Come Up The Seasons Will Change Nina Nesbitt

```
[Verse 1]
                            Am
Walking down Parsons Green, I can feel the cold
The leaves in the park are turning brown, I m twenty two years old
Crazy that I was stood right here just five years ago
With the heat on my skin and a lover who s now someone I don t know
[Pre-Chorus]
You don t see it when it s happening
Happens over time
First you re laughing, then you re crying
Then you can t decide
[Chorus]
                        Am
My life s uncertain and sometimes it s strange
But one thing I ve learnt is it won t stay the same
                      Am
Even in the darkness, I ll be okay
The sun will come up, the seasons will change
The sun will come up, the seasons will change
The sun will come up, the seasons will change
[Verse 2]
Winter comes racing round
There s something about the air
The fire is on and the chimney smoke
Is tangled in my hair
```

```
F
Crazy how much my life has changed
In just a year
There s people I ve met, people I ve left
And some that didn t make it here
[Pre-Chorus]
You don t see it when it s happening
Am
Happens over time
First you re laughing, then you re crying
Then you can t decide
[Chorus]
                        Am
My life s uncertain and sometimes it s strange
But one thing I ve learnt is it won t stay the same
Even in the darkness, I ll be okay
The sun will come up, the seasons will change
The sun will come up, the seasons will change
The sun will come up, the seasons will change
The sun will come up, the seasons will change
The sun will come up, the seasons will change
The sun will come up, the seasons will change
The sun will come up, the seasons will change
[Outro]
The sun will come up, the seasons will change
The sun will come up, the seasons will change
```
