F#
I love you cause you re sympathetic,
you listen once and soon forget what I said,
cause it s all in your head.

F#
I love you like a new adiction,
you kiss me once and then go missing,
so long, you ve been gone all along,

G#
With your happiness and satisfaction,
distorted by the big attraction,
C#

I cut you down and set you free,
I pull the darkness over me.
I can t help it, (I can t help it)
I can t help myself
and you know it, (And you know it)
cause there s nobody else,
yer, there s nobody else.

F#
Waking up was not so easy, you sobered up quite completely
Feel down, there was no one around

G#

But, your sentimental chain reactions,
tied to all the old distractions,

C#

I held you temporarily,

Bb **B**

to rest your bones here next to me.

Dm **B** **Dm** **B**

I can't help it, (I can't help it)

Dm **B, C#, D#m**

I can't help myself

Dm **B** **Dm** **B**

and you know it, (And you know it)

Bb **B C# D#m**

cause there's nobody else,

Bb **B C# Dm**

yer, there's nobody else.

Solo: (**F#, Bb, B, F#, Bb, B, Dm, Bb, F#, B, Bb, B**)

G#

It's just happiness and satisfaction,
safely in the ground reaction,

C#

it'll make you who you wanna be,

Bb **B**

I pull the darkness over me.

Dm **B** **Dm** **B**

I can't help it, (I can't help it)

Dm **B, C#, D#m**

I can't help myself

Dm **B** **Dm** **B**

and you know it, (And you know it)

Bb **B C# D#m**

cause there's nobody else,

Bb **B C# Dm**

yer, there's nobody else.

Nobody else
