

**Absolutely Story Of A Girl  
Nine Days**

Chorus:

**Csus**                  **G**  
This is the story of a girl  
                                  **Asus**                                  **D**  
Who cried a river and drowned the whole world  
                  **Bm**                                  **Csus**  
While she looks so sad in photographs  
          **ASus**  
I absolutely love her  
                  **G**          **G D Csus G D Csus**  
When she smiles

Verse:

**Bm**                                  **Csus**  
How many days in the year  
          **G**                                  **D**  
She woke up with hope but she only found tears  
          **Bm**                                  **Csus**  
And I can be so incincere  
**G**                                  **D**  
Making her promises never for real  
          **Bm**                                  **Csus**  
As long as she stands there waiting  
**G**                                  **D**  
Wearing the holes in the soles of her shoes  
**Bm**                                  **Csus**  
How many days disappear  
          **G**                                  **D**  
When you look in the mirror so how do you choose

Bridge:

**Em**                                  **F#**  
Your clothes never wear as well the next day  
          **G**                                  **Asus**  
Your hair never falls in quite the same way  
          **Em**                                  **F#**                  **Asus**  
But you never seem to run out of things to say

Chorus

Verse 2:

**Bm**                                  **Csus**  
How many lovers would stay  
          **G**                                  **D**  
Just to put up with this every day and all day  
**Bm**                                  **Csus**  
How did we wind up this way

**G** **D**  
Watching our mouths for the words that we say  
**Bm** **Csus**  
As long as we stand here waiting  
**G** **D**  
Wearing the clothes of the souls that we choose  
**Bm** **Csus**  
How do we get there today  
**G** **D**  
When we re walking too far for the price of our shoes

Bridge
