Very easy song

G 320033 **Em7** 022033

Cadd9 x32033 **Dsus4** 000233

Intro (piano)
just notes of the song chord progression

G Em7 Cadd9 Dsus4 (u can use just D if u want)

Verse 1.

G **Em7** **Cadd9** **Dsus4**
Heres another day she waits and pulls herself away...

Pre chorus.

G **Em7** **Cadd9** **Dsus4**
You needed just another girl to get you through the door

G **Em7** **Cadd9**
You ve got just enough honesty, to make you want

D
a little more

Chorus.

G **Em7** **Cadd9** **Dsus4**
I wish for nothing but the rain

G **Em7** **Cadd9** **Dsus4**
to fall, and wash away everything

G **Em7**
that i ve done wrong

Cadd9 **Dsus4**

find a way to make you strong

Cadd9

if only for another day

(and then back to G)

Thats all you need, because the whole chord progression pretty much repeats itself
and if you cant figure out the specific parts your self from those chords then
you don t deserve to play them!
