Back To Me
Nine Days

// By: T.Strandberg

// CHORUS

```
                        D                          A
If you would just come back to me I would be so good
                        G                          E
Put your trust back in me the least I think you should
                     D                    A
We ll call it my pathology so I misunderstood
                   G                        E
A bit selfish I should be if I could change I would
                 D
See it on my face
```

A   G   E

// VERSE

```
D                           A
All I wanted was a freind to look in me to comprehend
G                          E
All I wanted was to fly how could you sit and watch me die
D                          A
All I wanted was you there your cruelty was my despair
G                          E
You just killed me so the story goes
```

// BRIDGE

```
D                             A                              G
Once upon a time there was a girl who loved me more than life itself
         E
By the duck pond she said,
D                              A
Carved our names into the bark we climbed the tree
                       G
I slipped and fell behind
          E
Now I m sorry.
```

// CHORUS
// VERSE
// BRIDGE
// CHORUS
// SOLO (same chords)
// CHORUS

As you see it s the same chords thru the whole song!

Have fun, enjoy!
