// Chorus
```
                        E
 Cause now I wanna  be
             C#m
Where you sleep
             B
Where you laugh
          A
Where you breathe
                E
And I hate to say
        C#m
Still I sway
            B
Brown your eyes
       A
Gone away
```
