Chords can be played a few differnt ways.
(fret numbers from capo position. e.g 1 = 2nd fret etc)

```
Simple   strumming  way:
C# -0        Fm-0      D#-2    G#-3       G#/G-3
   -1         -0        -3       -3          -3
   -0         -0        -2       -0          -0
   -2         -2        -0       -0          -0
   -3         -2        -0       -2          -0
   -0         -0        -x       -3          -2
```

The other way (and how they are played on the track) is by playing these on the bottom 3
(low strings) instead of strumming the chord :
(play them for longer/shorter depending on how the long the chord is played)

```
C#  -------2-- -----2-------2--------2-|
    --3--------3--------3-------3------|
    --3--------3--------3-------3------|

    -3---------3---------3---------3------|
