V2

Left his house at midnight, resolute and young
In search of something better than the person he d become
Threw his bags onto the back of his run down 80 s car
Headed out to God knows where, the distance is too far

He s gonna change, gonna change his ways
Gonna change, gonna change his ways

And it feels like his new life can start
And it feels like heaven

And it feels like his new life can start
And it feels like heaven

Bb **C** **Dm**
Your life is your life, you gotta live like it s your life
Your life is your life, you gotta live like it s your life
Your life is your life, you gotta live like it s your life
Your life is your life, you gotta live like it s your life

And it feels like his new life can start
And it feels like heaven

And it feels like his new life can start
And it feels like heaven

And it feels like his new life can start
And it feels like heaven

And it feels like his new life can start
And it feels like heaven
