

**Nashville**

**Noah Gundersen**

This is as accurate as I could manage with my first upload, hope you like it.

Capo 2 fret

[Intro]

**Em G D Em** x2

[Verse]

**Em** **G**  
Packed up my piano, and a suitcase full of clothes  
**D** **Em**  
and went looking for some better place to hide  
**Em** **G**  
Ride across the border, in a broken down Sedan  
**D** **Em**  
with a bottle and a rifle on my mind

**Em** **G**  
On and on and on and on the miles stretch for hours  
**D** **Em**  
the radio keeps spitting out the tune  
**Em** **G**  
Every other song is just another tired rhythm  
**D**  
another tired lovers tune

[Chorus]

**C** **G**  
It s a long long way back to Nashville  
**D** **Em**  
where I come from, where I ve been  
**C** **G**  
It s a long long way back to Nashville  
**D**  
but I promise I will see you again

[Intro]

**Em G D Em**

[Verse]

**Em** **G**  
Through the ice and fog this morning the sun is coming up  
**D** **G**  
I m standing on the shores of the Hudson bay

**Em** **G**  
Over glass fired violet, silence, silence  
**D** **G**  
calling up the day

**Em** **G**  
And every man is an island, an island  
**D** **Em**  
in his own special way  
**Em** **G**  
there s a white ghost out on the water, the water  
**D**  
with one good song and nothing else to say

[Chorus]

**C** **G**  
It s a long long way back to Nashville  
**D** **Em**  
where I come from, where I ve been  
**C** **G**  
It s a long long way back to Nashville  
**D** Dadd11  
but I promise I will see you again  
In heaven

Then just end with the final refran chords.
