

Kahit Maputi Na Ang Buhok Ko
Noel Cabangon

An awesome revival by Philippines very own Noel Cabangon. I found a tutorial at youtube on how to play the song. I tabbed the whole song so that I won't be loading the videos over and over again. (F*ck my net speed =.=) This is not 100% accurate, but it sounds great. Here's the link for the youtube video I've used as reference for this tab. This is part one.

(Part 2)

(Part 3)

As said on the video, Noel randomly plucks strings while playing. Normally starts with a bass (6th string or the 5th string, depending on the chord) Just refer to the video for further information on how to play the song. Well, enough with the talk, here it is. Enjoy :)
