Introduction: **G, Dsus4, Cadd9, Em7**

G Dsus4

Ask me how I feel

Cadd9 Em7

I ve got another day and a half to spare

G Dsus4

It ll probably make you squeal

Cadd9 Em7

Sympathise but you never prepare

Do you really want to know?

Or is it just so you can laugh at me?

Say I m sad and you say so

It s your attitude

Is what you thought it to be

What must my friends think of me?

There is another world, there has to be

Don t harass me no more

Can we talk about something else now please?

I don t want to say anymore

Can we talk about someone else now please?

She said I didn t understand

She said I didn t care

Well it s just not true

It makes me think that it was bad

What s it got to do with you?

Well it s got nothing to with you

It s got nothing to with you
