Capo 5th fret

**G D Em C G**

I meet you every day for work out  
Oh we ve been going for years

**G D Em C G**

We both have girls that we don t care about  
Oh my friend, I know they talk a lot

**G D Em C G**

We re trying to find the best solution  
But we re scared to face the real conclusion

**G D Em C G**

The days keeps passing by  
We re living in a lie  
Some day  
I ll say  
We re giving it a try

**G D Em C G**

Meet me half way  
Cause I m reaching out for you tonight my friend

**G D G D**

I ll take it slow on this rodeo

**G D C D**

We can cuddle all night  
I can hold you so tight  
I can tickle your back  
While you re playing with my sack

**G D C D**

We don t have to feel bad  
Well the girls might be sad  
Tonight it s you and I  
I ll go gently if we try

**C D**

I can take it slow baby lets go

**G D Em C G**

So you re not ready to hold my hand  
Man I can understand

**G D Em C G**

If we re in public then we re just friends  
Oh God I miss your hands

**G D Em C G**

We giggle and jumping down the street now  
Cause last night we connected somehow

**G D Em C G**

The flirting still goes on  
we re men and we are strong

Someday

We ll say

Girls are always doin it wrong

**G D Em C G**

Hold me When it s getting cold  
Man your girlfriend is getting old

**G D Em C G**

Hold me when I m down and blue  
Cause baby I love you

Chorus

**G D Em C G**

Hold me When it s getting cold  
Man your girlfriend is getting old

Hold me when I m down and blue  
Cause baby I love you
