

Little Broken Hearts  
Norah Jones

Norah Jones - Little Broken Hearts

**Em**

**Em**                    **Am**                    **Em**  
Little broken hearts of the night  
          **Am**                    **Em**  
Slowly picking up their knives  
          **Am**                    **C**  
On the way to the fight  
          **B7**                    **Em**  
Tonight they want revenge

**Em**                    **Am**                    **Em**  
Beautiful soldiers in their beds  
          **Am**                    **Em**  
Making love inside their hands  
          **Am**                    **C**  
With no chance to defend  
          **B7**                    **Em**  
Tonight could be their end

**Em, Am, Em, Am, C, B7, Em**

**Em**                    **Am**                    **Em**  
With the weapons in their hands  
          **Am**                    **Em**  
And their eyes closed as they stand  
          **Am**                    **C**  
Can they end it all tonight  
          **B7**                    **Em**  
so easily?

**Em**            **Am**            **Em**  
Did the darkness of their days  
              **Am**            **Em**  
Make them let go of their light?  
              **Am**            **C**  
Will they want to find a way  
      **B7**            **Em**  
To make it all right?

**Em**            **Am**            **Em**  
When the beautiful awake  
              **Am**            **Em**  
See the sadness in their eyes  
              **Am**            **C**  
Will they want to find a way  
      **B7**            **C**  
To make it all right,  
      **B7**            **Em**  
To make it all right?

**Em, Am, Em, Am, C, B7, Em**

**Em**            **Am**            **Em**  
Only the fallen need to rise  
              **Am**            **Em**  
What if lightning strikes them twice?  
              **Am**            **C**  
Will they give up on their lives  
      **B7**            **Em**  
And finally divide?

**Em**            **Am**            **Em**  
Did the darkness of their days  
              **Am**            **Em**  
Make them let go of their light?  
              **Am**            **Em**  
Can they ever find a way  
      **B7**            **Em**  
To sleep side by side?

**Em**            **Am**            **Em**  
When the beautiful awake  
              **Am**            **Em**

See the sadness in their eyes

**Am C**

Will they ever find a way

**B7 C**

To sleep side by side,

**B7 C**

To sleep side by side,

**B7 C**

To sleep side by side?

**B7, C, B7, C, B7, C, B7**

**Em, Am, Em, Am, C, B7, Em**

Enjoy
