

**Town**  
**Northern Uproar**

**C**

Shall I go ahead and find a way

**G**

I ain't coming back till tomorrow day

**C**

I'm just on a plane

**G**

I'm goin' out my way

my way

**C**

There's just one thing on my mind

**G**

and still I cannot get this right

**C**

and I phoned you at home

your mother said you weren't alone

**G**

so where were you girl

Oh this is just what she said

**Am** **D**

you're goin' down

**Am**

so downtown

**D**

where the streets are full of clowns

**Bm**

**Em**

and you'll just never never see the day

**C**

when I love you babe

**G**

I love you babe

Gonna take things slow

gonna take things easy

so easy

Life back at home's been driving me crazy

so crazy

But now it's time c'mon now girl

let's get things straight yeah

don't you just come across my baby

like you're in some earthquake

some earthquake

You're goin' down

to downtown

where the streets are full of clowns

and you'll just never never see the day

when I love you babe

I love you babe  
(repeat chorus)
