

Between Horns And Halos
Northstar

Verse

A **E**
Looking out of a second floor window
F#m **D** **A** **E**
planning out my exit wound, she s so overlooked
D **Bm** **F#m**
this slaughter will get hotter
D
and it s early overdue

A **E**
Trying on a makeshift halo
F#m **D** **A**
kissing on my exit wound, knowing well
E **D**
that the farthest place from heaven
Bm **F#m** **D**
lies just right inside her room

Bm **D** **A** **Bm**
And I staggered off my love of love,
D **E** **Bm**
romance, and valentine ways
D **A** **Bm**
she felt so cold, so cold she froze
D **E**
under the sheets, while I slept all day

A **D**
She will sleep there, in between the cracks
Bm
just a flower with a broken back
waiting for dirty water
D **E**
did you sleep alright, did you sleep all
A **D**
she s giving beat stares, from being beat all day
Bm
Indian eyes, and the American way
D **E**
Hail Mary s and ale, a Hailed Mary that ails

Bm **D** **A** **E**

This Jezebel, is bleeding from a place that

Bm D A E

can never, ever, be replaced
