VERSE:

C **Am**
Somebody turn the key

C **Am**
Of what s locked inside of me

Fmaj7 **C (Cmaj7)**
So I ve been waiting so long

C **Am**
So I m crying golden tears

C **Am**
I ve been crying ever since

Fmaj7 **G**
I ve been, I ve been waiting so long

CHORUS:

C **G**
But I cannot try to live without

Am
The silence in my head s too loud

Fmaj7 (G)
The silence in my head s too loud

C **G**
Maybe I could be just fine

Am
If only you could free your mind

VERSE:

C **Am**
But the sun is out at night

C **Am**
And the moon fell down like rain

Fmaj7
You ve been, you ve been waiting so long

C **Am**
It s the killing of the sound

C **Am**
Makes it spinning up and round

Fmaj7
You ve been waiting too long

CHORUS:

C **G**
But I cannot try to live without

Am
The silence in my head s too loud

Fmaj7 (G)
If only I could open up

C **G**
Maybe I could be just fine

A#sus2
If only you could free your mind

Fmaj7
I count on you to open up

BRIDGE:

G - Am

G **Am**
How kind of you to sing around love

CHORUS:

C **G**
But I cannot try to live without

Am
The silence in my head s too loud

Fmaj7 (G)
If only you could open up

C **G**
Maybe I could be just fine

A#sus2
If only you could free your mind

Fmaj7
I count on you to open up
