

Utican
Novo Amor

I know this song has nothing to do with a guitar, but I still love this song, and would love to be able to play it on the guitar. So I took what I could here from the piano(which it just can be transposed 4½ steps up to sound like), and tried to put it easy on the guitar. This is my best shot, if you have any suggestions, go ahead :)

[Intro]

D Dsus4 D Dsus4

D

Hear that?

N.C D/F# G
Oh my god, I'll fill the coffee over!

D

Tear out

A/C# D A/C# D A/C# D/F# G
all my love until my blood runs sober.

A/E

Oh, let me down,

D/A A/C# G/B G
my body's sinking, I can feel it now.

A/E

Oh, hear me out,

D A/E G
I've been thinking I won't stick around.

A

See that?

D G D

Oh my god, I think we lost control!

A/E

Feel that?

A/C# D/F# G
Don't mind me, I won't be here for long.

N.C. **A/C#** **D/A** **G**
So please donâ€™t tell me now,

Dsus4 **A/E** **D A/C# G/B**
I swore it for you once and it gets me down,
A/E **D/F#** **G**
so please donâ€™t tell me now.

A
Oh, get me out!
D **A/C#** **G/B G**
My bodyâ€™s shaking, but I donâ€™t fear it now.
A/C# **D/F#** **A** **G**
Iâ€™ll sing it out, thank god youâ€™re shrinking, â€™cause I wonâ€™t be around.

So I would take a bow!
