

A Little Consolation
Now It's Overhead

Now It s Overhead
A Little Consolation

For the verses I like to strum the open chords.
For the chorus and little breakdown I play a combo of power
and bar chords. The solo is pretty easy, but I didn't feel
like tabbing the whole thing. The first note is 14th fret
of G string and the highest note is 19th of high E.
Anyways, this is a great band and song, so I thought
someone should post it.
