

Like that
Now United

I like the way that you're beautiful
But you don't act like it
With your friends, when you speak your phone
They love the way we fit
Oh, oh, oh
You're so far out of my league
But we click so easy like A-B-C
And I hope that you and me
Will never change
Cause I like it, like it, like it, like that
When I met you, knew that you were my last
Say my sweater fits you better, why's that?
Cause you like it, like it, like it, like that
Oh, your favorite place to sit is my lap
Anywhere you go, you make it high class
Say I love you, always say it right back
Cause I like it, like it, like it, like that
You kinda shy, but when we're alone
You're the funny one
People starin' at you head to toe
But I ain't worried, nuh-uh, no, oh, oh, oh
Oh, you're so far out of my league (yes, you are)
