O.A.R.

Artist: OAR

Song: Hey Girl

Album: Souls Aflame

Ok, this is a real fun one to play, interesting strumming pattern  
The Chords are E, A, B, A. Use the open E and A and the B on the  
second fret for the intro and for the chorus, it gives it a more  
full feel, and you also want to let it ring when you are playing it.  
For the verse use the higher voicings of the chords that look like  
this:

	<b>E</b>	<b>A</b>	<b>B</b>
E	--7--5--7-----		
B	--9--5--7-----		
G	--9--6--8-----		
D	--9--7--9-----		
A	--7--7--9-----		
E	--x--5--7-----		

For these chords you wanna use the same strum pattern that you did  
in the intro for the E and the B, but for the A just hit it once and  
mute it. Listening to the song really helps.
