Its Better People
Oasis

[intro]   **D A4 Em7 G**
[verse]   D A4 Em7 G
It s better people love one another
 Cause livin your life can be tough
It s better people speak to each other
Your shame is not enough
If everybody came alive
And stayed alive
And lived their lives instead, yeah
So come outside
And feel the light
It s cold inside
But it s lonely in your bed
In your bed

[pre-chorus]   E G A
And though we might be
But what you heard before
Was only sleepin in your brain
But if you came with me
The days d never end
Would never be the same

[chorus]   **E G A**
They d never be the same
They d never be the same
Never be the same

Here is Better People from the CD single Roll With It and the Amercian
release Morning Glory single.
 Better People by OASIS has got to be the 2nd best
Song they perform besides WonderWall. Sure wish
this would have been a single release. Anyway here
it is, in the correct way it is supposed to be
played.

Place Capo on second fret(listen real close and you
          can tell that the song has a capo), and play
          standard chord patterns of D, A, Em, G, E,
          but they will be transposed up one
          whole step.

/ or = Slide so that you get a good fret sound as you
                slide up or down.

m   = muted note

[capo behind 2nd fret]
E   [xx2454]
B   [x24442]
F#m   [244222]
A   [543355]

E   B   F#m   A
