

Revolution Song
Oasis

C **G**
They took my faith
 Am **G** **C**
They put it in a headlock and
 G
They sealed my fate
Am **G** **C**
Somewhere inside of the world in which they live

Because I failed
They constantly ignore me and
They told me I lost my mind
But I believe that I rule the world

Dm **G**
Singing out my revolution song like nothing else matters
Dm **G**
You can pitch your gold against my soul but I bet you get shattered
Dm **G**
There s a million houses in my home
 C **G**
It won t be long
 Am **F**
It won t be long
 Am **G** **C**
Til I solve my mystery

What for me?
What do I believe in? and
The master key
Is somewhere inside of the world in which I live
And what for they?
They will speak for no one and
I may have lost my mind
But I believe that I rule my world

Singing out my revolution song like nothing else matters
You can pitch your gold against my soul but I bet you get shattered
There s a million houses in my home
It won t be long
It won t be long
Til I solve my mystery

And I m singing out my revolution song like nothing else matters
And you can pitch your gold against my soul but you re gonna get shattered
There s a million houses in my home
It won t be long

It won't be long

F **Am**

Til I solve my mys.....

G **C**

Til I solve my mystery
