## Revolution Song Oasis

C G

They took my faith

Am G (

They put it in a headlock and

G

They sealed my fate

Am G

Somewhere inside of the world in which they live

Because I failed

They constantly ignore me and

They told me I lost my mind

But I believe that I rule the world

Dm G

Singing out my revolution song like nothing else matters

Om (

You can pitch your gold against my soul but I bet you get shattered

Dm G

There s a million houses in my home

C G

It won t be long

Am F

It won t be long

Am G

Til I solve my mystery

What for me?

What do I believe in? and

The master key

Is somewhere inside of the world in which I live

And what for they?

They will speak for no one and

I may have lost my mind

But I believe that I rule my world

Singing out my revolution song like nothing else matters

You can pitch your gold against my soul but I bet you get shattered

There s a million houses in my home

It won t be long

It won t be long

Til I solve my mystery

And I m singing out my revolution song like nothing else matters  $\,$  And you can pitch your gold against my soul but you re gonna get shattered

There s a million houses in my home

It won t be long

Til I solve my mystery
