

Revolution Song
Oasis

B **F#**
They took my faith
G#m **F#** **B**
They put it in a headlock and
F#
They sealed my fate
G#m **F#** **B**
Somewhere inside of the world in which they live

Because I failed
They constantly ignore me and
They told me I lost my mind
But I believe that I rule the world

C#m **F#**
Singing out my revolution song like nothing else matters
C#m **F#**
You can pitch your gold against my soul but I bet you get shattered
C#m **F#**
There s a million houses in my home
B **F#**
It won t be long
G#m **E**
It won t be long
G#m **F#** **B**
Til I solve my mystery

What for me?
What do I believe in? and
The master key
Is somewhere inside of the world in which I live
And what for they?
They will speak for no one and
I may have lost my mind
But I believe that I rule my world

Singing out my revolution song like nothing else matters
You can pitch your gold against my soul but I bet you get shattered
There s a million houses in my home
It won t be long
It won t be long
Til I solve my mystery

And I m singing out my revolution song like nothing else matters
And you can pitch your gold against my soul but you re gonna get shattered
There s a million houses in my home
It won t be long

It won't be long

E **G#m**

Til I solve my mys.....

F#

B

Til I solve my mystery
