Verse 1:

D5

Day s turning to night

Pray for the light

A5

Let me come through

D5

Let me take you away over the line

Everyone falling

Everyone falling

Dreamers come crawling

Neighbours jump walling

Let me come through

Let me take you away over the line

Verse 2:

And we re away to be where there s life

Shake the will to comply

Fears don t try me

Tears don t cry me

And we re away to be where there s life

When we come call out

Everything s sold out

TV just closed down

There s nothing on the news now

Fears don t try me

Tears don t cry me

We re away to be where there s life

Be where there s life

Verse 3:

Dig out your soul, cos here we go

We gotta move, it s what we do

Let me come through

Let me take you away to be where there s life

To be where there s life

Take you over the light
Under the signs
In through locked doors to secret floors
Where we've lost 'em before
