Odd Robot

[Intro]
A D A E A D A E D

[VERSE 1]

A   **D**   **A**
all the things that I forget to say
                      E   **A**
amnesiatic in the worst way
                              D   **A**
whatâ€™s her name again, what did she say
          E   **D**
something slapped my brain
                              A
itâ€™ll never be the same again

[CHORUS]

F#m   **Bm**
absentmindedness, itâ€™s true
    E   **A**
the bad ones, though, they stick with you
    D   **E**
and if you never let them out
                  F
you will never see the light
        F#m   **G**   **A**
thatâ€™s lost inside of you

A   **D**   **A**
all the things that I forget to do
                              E   **A**
forget-me-not, am I in love with you?
                        D   **A**
whatâ€™s the road that I forgot to take
          E   **D**
something slapped my brain

itâ€™ll never be the same again

absentmindedness, itâ€™s true

the bad ones, though, they stick with you
