 C#                                             G#
   I don t like you and I won t pretend to now
                    C#                          G#
I m gonna get you out of my way and into another
                 F#           G#
How I ever trusted you, I will never know
     C#                F#
And it all seemed so long ago
    C#                 F#
What you say will come back to you
    C#                 F#
What you say will come back to you
    C#                G#                C#
What you say will come back to your big mouth

 C#                                             G#
I believed you and I thought I knew you
                        C#                        G#
And I told you things that I would never tell anybody else
                  F#           G#
And now it s common knowledge to everyone
     C#                F#
And now I can t face anyone
    C#                 F#
What you say will come back to you
    C#                 F#
What you say will come back to you
    C#                F#       G#       C#
What you say will come back to your big mouth

 F#
I never thought you d do it now
                                C#
Never thought you d ever tell them that
             G#
You have a big mouth
