Speak Out Now Oh Land ***SPEAK OUT NOW*** Oh Land Oh Land - Deluxe Edition (2012) Okay this is one of Oh Land s most successfull songs, so I was wondering why there are no tabs in the web. Anyway I tried my best to figure out the chords, if it doesn t sound right to you, feel free to correct the mistakes :) Verse: B C#m/F Pre Chorus: C#m B F# A Chorus: E F# B B/G#m E F# C#m Break: C#m B F# A If I jump, will it echo? From an infinite space Does it light, bring the thunder Run away you re still at risk Be my sins, I m your sorrow If I shout, no earth will shake We re running away Pushing everything over the edge We re running away If I find out who s gonna catch We re running away Pushing everything over the edge We re running away (Falling over) Watching it all over my shoulders Until the masquerades over We re not gonna wait here Not gonna get left out No one can tell you how You just speak out now Watching it all over my shoulders

It is true, cause it s spoken And there s no way to bring it back Time is a thief, trying to trick you

Until the masquerades over We re not gonna wait here Not gonna get left out No one can tell you how You just speak out now It will happily tell you lies Memories, whisper slow Hold back, or let it go go

We re running away Pushing everything over the edge We re running away If I find out who s gonna catch We re running away Pushing everything over the edge We re running away (Falling over)

Watching it all over my shoulders Until the masquerades over We re not gonna wait here Not gonna get left out No one can tell you how You just speak out now Watching it all over my shoulders Until the masquerades over We re not gonna wait here Not gonna get left out No one can tell you how You just speak out now

When there s a win, there s a sacrifice When there s a loss, there s a bright light No stones or sticks kick us on the high If there s a law, there s a way to fly

Watching it all over my shoulders Until the masquerades over We re not gonna wait here Not gonna get left out No one can tell you how You just speak out now Watching it all over my shoulders Until the masquerades over We re not gonna wait here Not gonna get left out No one can tell you how You just speak out now
