A#m **Fm**
Before the world you know was like it is
C# **F**
I held a lover once and I was his
G# **F#**
And we walked along the river in the sun
F
But he s a lonely man so this was done
A#m **Fm**
The only place we had to meet is night
C# **F**
While the sun he sleeps in shadows we can hide
G# **F#**
On the mountainside we d spent our time together
F
But it is gone when morning comes

A#m **Fm**
And you are the wolf
C# **F**
And I am the moon, oooh
A#m **Fm**
And in the endless sky we are but one
We are alive
C# **F**
In my dreams wolf and I
A#m **Fm**
How many days and nights will come and go
C# **F**
While the only light you ll see is from my glow
G# **F#**
There will never be a dawn that breaks the spell surrounding us
F
Till the earth dies with the sun

A#m **Fm**
And you are the wolf
C# **F**
And I am the moon, oooh
A#m **Fm**
And in the endless sky we are but one
We are alive
C# **F**
In my dreams wolf and I
