I feel it all around

I feel it in my bones

My life is on the line

When I m away from home

When I step out the door

The jungle is alive

I do not trust my ears

I don t believe my eyes

C

I will not fall in love

G

I cannot risk the bet

C

Cause hearts are fragile toys

Am

Em

so easy to forget

Em

It s just another day

There s murder in the air

It drags me when I walk

I smell it everywhere

It s just another day

Where people cling to light

To drive away the fear

That comes with every night

It s just another It s just another day

It s just another It s just another day . . .

It s just another day

When people wake from dreams

With voices in their ears

That will not go away

I had a dream last night

The world was set on fire

And everywhere I ran

There wasn't any water

The temperature increased

The sky was crimson red

The clouds turned into smoke

And everyone was dead

(but) There s a smile on my face . . . For everyone

There s a golden coin . . . That reflects the sun

There s a lonely place . . . That s always cold

There s a place in the stars . . . For when you get old

There s razors in my bed

That come out late at night

They always disappear

Before the morning light

I m dreaming again

Of life underground

It doesn't ever move

It doesn't make a sound

C

And just when I think

G

That things are in their place

C

The heavens are secure

The whole thing explodes in my face
