Okkervil River - A glow

Tabbed by: Luftspisen

Note: This is the basic chord structure. I have not included the solo/instrumental part

I m not planning to either.

I guess some of the chords can be varied a bit and also you might want to add some

between the chords

(as **F (G) Am Bb (C) Dm**)

for example. Just play the bass-note quick and not the whole chord.

Any corrections or anything else, just send me an email. Enjoy!
