[Verse]

Em	G	D
Oh, my enemy, you ve got company, you re not alone.		
Em	G	D
They re watching over me while each town I pass fades as it folds.		

[Chorus]

G	Em	D
So in the night we might get lost in our fright.		
G	Em	D
So in the day softly we ll flow, floating away.		

[Verse]

Em	G	D
And it pours from the faucet s mouth		
Em	G	D
like our fortune comes flowing out --		
Em	G	D
every word of which, without a doubt,		
Em	G	D
will find us together and together bring us down.		

[Verse]

Em	G	D
They ll tie us down with those fine thin threads		
Em	G	D
and run their knives up and down our skin,		
Em	G	D
until what was in will be out again,		
Em	G	D
above the sea on that sunny ledge.		

[Chorus]

G	Em	D
As in the day softly we ll flow, floating away.		
G	Em	A
And in the night we will get lost, lost in our fright.		

Em **G** **D**
La la la la la la...

G **Em** **D**
And in the day softly we ll flow, floating away.
