**Lost And Found**
**Ola Podrida**

```
          D                           A
The car crashed but everybody was okay
          G                           A
But that don t mean we re gonna have to stay
       D                          A
So c mon, I m ready to go when you re done
        G                         A
Let s trash this place before we run
     G              D
And if we both fall down
        G                 A
Another train will come around
     G             A             D    A
Packed with others getting lost and found

      D                           A
By now we re finishing each other s thoughts
            G                       A
Everyone else seems to want what we ve got
         D                A
But I m not afraid to say goodbye
        G                         A
As long as someone else has caught my eye
     G          D G               A
Everyone s a dove when they fall in love
       G        D         A
The roses cover up the old debris
    G               A
Keeping their eyes down
    D                           G
Until they can t ignore the sound
                    A             D    A
Of all the others getting lost and found

Instrumantal :D A G D A
               D A G A D

     G                   D
We all have hearts so pure
     G                   A
But some hearts can t endure
        G       D             A
The iridescent light of folly s lure
       G            A
We give in to the sound
          D                       G
```

```
Of that old train coming  round
  G                    A                D
Packed with others getting lost and found
