

## Terror Time

### Old Blind Dogs

[Intro]

D G D G

[Verse]

Heather will fade, aye bracken will die

Streams will run cold and clear

Aye, the small birds will be going

For it s then that you ll be knowing

That the terror time is here

[Verse]

The woods give no shelter, and the trees, they are bare

Snows lying all around

Oh, the young children are crying

For the bed on which they re lying

Is frozen to the ground

And when you need the warmth of your own human kind

You move near a town and then

Oh, the sight of you is offending

The police they soon are sending

And you re on the road again
