

Blue Eleanor
Old Canes

Artist: Old Canes
Song: Blue Eleanor
sfc

Cappo on 6th fret

INTRO (for two bars)

G

VERSE

G C G D
Same old story told again
G C
They were lovers like no other
G D
But it always has to end
Em D
You got a hole in your heart
G
It needs more
C
For it to start
G D
Feeling alive
G
Feeling alive

G

Then you met this man
C
And everything turned grand
G D
And I could see that twinkle in your eye
G
He knew how to kiss you
C
I really really missed you
G D
And oh how it makes you feel high
Em D
Oh how it makes you feel so high
G C
You could swear now you could fly
G D
It makes you feel high
G

It makes you feel high

CHORUS

C G D G(1) D(1) G(1)

VERSE

Well I feel more worn out than ever
Before I felt alone
But I Just can t take no more
And I wish this ground would open up
And take me down
You know I ve had enough
You know I ve had enough
You know I ve had enough

VERSE

And now that I ve been thinking
Fighting and drinking
Sleeping around
And getting high
And no where are those kisses
To drown out those wishes
figuring out a way to stay alive
cause I ve got this hole in my heart
and it may stop bleeding
but it ll never start
it ll never start.
never start again.
