                        A
her head filled with pain
                        E/F#
and thoughts of her land
                    F#m
and arms of her man
                E/F#
Twis moving hands
                A
weighing her down
                    E/F#

her herd in my hands
