**D Bm A A**  
My good gal ain t no good to me  
**E G G#m A**  
She makes true love more like misery

Now I m walkin hunched  
I get drunk a bunch  
Would you sucker up and take a punch  
My good gal ain t no good to me  
N I think I ve acted reasonably

**Bm E**  
ah but I miss her..... mmmhhm  
**Bm E**  
And all that I wish for her..... mmmhhmm

Is the time of day  
Don t go out of your way  
Just leave me with a stack of them bills to pay  
My good gal ain t no good to me  
And she don t even have the courtesy  
To shut the door  
When she s been playin a whore  
Don t want to see his rags piled on the floor

My good gal ain t no good to me  
And I only wish that she could see

That I miss her

Ah but I miss her.... mmmhmm

All I have is a picture.... of her

It was taken years ago

I was a kid you know

Just leanin up against that El Dorado

My good gal ain t no good to me

And the final word belongs to me

Because I drove her out of town

And I shot her down

And I left her there in the cold cold ground

My good gal ain t no good to me

Not even in her memory
